

Energy Saving Lighting Solutions for Your Home or Business

In Residential or Commercial enterprises, even a seemingly small upgrade—like switching from dated halogen or incandescent bulbs to more modern LED lighting—can result in significant benefits to your electrical cost.

At Vick Houston's Energy Solutions, we'll work closely with you to choose the right type of LED lighting system so that you can enjoy the greatest advantages & savings.

- **Energy Savings:** ENERGY STAR-certified LED lighting can lower energy costs without compromising on light quality and comes in varied designs.
- **Reduced Maintenance:** LED lighting has a much longer expected lifetime, which reduces the need for bulb replacement which means Monthly savings on your electrical bills.
- **Improved Performance:** The right lighting can make the experience. In your home & landscape. In your business employees feel more comfortable, enhance productivity and output, and provide safe illumination in emergency situations.
